The University of Minnesota Veterinary Medical Imaging Group has been providing teleradiology services to regional and national veterinary hospitals since 2006. We are a group of enthusiastic, academic veterinarians who are board-certified in radiology by the American College of Veterinary Radiology or the European College of Veterinary Diagnostic Imaging. We look forward to serving you.

**Kari Anderson, DVM, Diplomate ACVR**
Dr. Anderson is a Professor of Radiology and Section Chief of Medical Imaging. She received her D.V.M. from the University of Minnesota, completed a small animal rotating internship at North Carolina State University, and completed her radiology residency at the University of Tennessee. Prior to her radiology residency, Dr. Anderson practiced for two years at a small animal veterinary hospital in Minnesota. Her special interests include clinical applications of radiology, nuclear medicine and ultrasound. Dr. Anderson has 19 years of radiology experience.

**Dan Feeney, DVM, MS, Diplomate ACVR**
Dr. Feeney is a Professor of Radiology. He received his D.V.M. from Colorado State University, completed a small animal rotating internship at Purdue University, and completed his master’s degree and radiology residency at the University of Georgia. His special interests include the applicability of imaging techniques (ultrasonography, computed tomography, magnetic resonance imaging) to cost-effective and accurate diagnosis of spontaneous disease including statistical modeling of the diagnostic process. Dr. Feeney has 37 years of radiology experience.

**Frédéric David, DEDV, MVetMed, Diplomate ECVDI**
Dr. David is an Assistant Professor of Radiology. He received his degree in veterinary medicine at Ecole Nationale Veterinaire de Toulouse, France, completed an equine rotating internship at Marion DuPont Scott Equine Medical Centre, Virginia Maryland Regional College of Veterinary Medicine and a diagnostic imaging internship at Ross University, and completed his master’s degree and radiology residency at the Royal Veterinary College, University of London. His special interests include neuroimaging, musculoskeletal MRI, development of new MRI protocols for animals, and evaluation of the benefits of imaging for the animal patient. Dr. David has 7 years of radiology experience.
